

ZUHAIB MUSHTAQ

QA LEAD | QUALITY ENGINEERING SPECIALIST

+91 9018922276 • zuhaibmushtaq@gmail.com • Srinagar, India • linkedin.com/in/zuhaibmushtaq • github.com/zuhaibmushtaq

PROFESSIONAL SUMMARY

QA Lead with 10+ years driving quality engineering for enterprise SaaS platforms — and a rare hands-on practitioner in Generative AI/LLM test engineering, from hallucination detection and bias testing to prompt validation and LLM output guardrail verification. 6 years leading and scaling QA teams up to 15 members. Track record: 25% defect reduction, 40% test coverage growth, and faster time-to-market through advanced Playwright/Selenium automation strategies. Experienced in mentoring cross-functional QA teams, implementing CI/CD pipelines, and driving process improvements aligned with ISO standards.

AI/QA Innovation: Built end-to-end LLM test strategy at WorkSpan spanning hallucination detection, RAG pipeline validation, and output guardrail sanitisation — a combination few QA leaders bring to the table.

CORE SKILLS

Automation	Playwright, Selenium WebDriver, Python, Self-healing / AIOps frameworks
API Testing	Postman, Rest Assured, REST API Testing, API Automation
Performance	Load Testing, Performance Testing, JMeter
AI/LLM in QA	Hallucination Detection, Bias Testing, Prompt Testing, Output Guardrail & Sanitisation, Prediction Scoring, RAG Pipeline Testing, Vector Database Validation, LLM Fine-tuning & A/B Model Comparison, AI Safety Test Design, Generative AI Testing, AI-driven Test Strategies, MCP, AI Agents
Manual Testing & Cloud ERP	Test Planning, Test Case Design, Regression, UAT. Cloud-based ERP QA (Google App Engine / SaaS), Finance, Accounting, HR, Payroll, CRM
Cloud Platforms	Google Cloud Platform (App Engine), Microsoft Azure (DevOps, Databricks)
AI Tools & Platforms	Claude AI, ChatGPT, GitHub Copilot, familiarity with multiple MCP (Model Context Protocol) server integrations
BI & Data	BI Testing, SQL, Data Validation, Data Warehouse & ETL Testing, Power BI, Azure Databricks
Tools & CI/CD	JIRA, Git, CI/CD (Jenkins/GitHub Actions), Azure DevOps
Soft Skills	Team Leadership, Mentoring, Stakeholder Communication

CERTIFICATIONS

- Data Engineering — AWS Databricks — In Progress, expected completion October 2026
- Playwright Automation — Udemy — In Progress, expected completion October 2026

WORK EXPERIENCE

Senior QA Engineer (Contract) – Data & Analytics

May 2026 – Present

Toyota Finance Australia — via Sofyrus Technologies / DX1 Australia — Aligarh, India · Remote

- Provide QA services for Toyota Finance Australia, contracted through Sofyrus Technologies and engaged by DX1 Australia, covering data warehouse, ETL, semantic layer, reporting, and analytics platforms spanning multiple business units.
- Develop and execute test plans, test cases, and scripts; validate data pipelines, ETL processes, and semantic layer transformations for accuracy and integrity across finance and analytics data domains.
- Perform functional, integration, regression, system, and UAT testing across enterprise platforms, and conduct data quality/integrity validation using SQL against production-scale data sets.
- Verify business rules, data mappings, and surrogate key (SKey)/business key implementations to ensure reporting accuracy for downstream analytics consumers.

- Identify, document, and manage defects through to resolution, collaborating with business stakeholders, developers, and data engineers; support release validation, production deployments, and post-release verification.
- Participate in requirement reviews and drive continuous improvement in testing processes, automation, and quality standards across the full SDLC.

QA Lead | WorkSpan

Jan 2023 – Sep 2025

- Led end-to-end quality engineering initiatives across a SaaS collaborative marketing platform serving enterprise clients.
- Managed and mentored a cross-functional QA team of up to 15, conducting regular knowledge-sharing sessions on Playwright automation and best practices.
- Designed and executed comprehensive test strategies for major product releases, reducing critical production defects by 30%.
- Integrated Generative AI into QA workflows, reducing manual testing effort by 30% and improving test targeting efficiency by 20%.
- Validated LLM inference API responses (JSON payload scoring, response consistency, edge-case behaviour) and vector database retrieval accuracy via automated Postman and RestAssured suites.
- Established CI/CD-integrated test pipelines using Playwright, improving test execution speed and enabling continuous quality feedback.
- Collaborated with product and engineering teams to define acceptance criteria, ensuring high-quality deliverables aligned with business goals.
- Led Salesforce CRM implementation QA over 12 months — resulting in a 25% increase in sales team productivity and a 30% improvement in lead conversion.
- Spearheaded Python 2 to Python 3 migration QA, validating 100% of API routes with zero downtime.

Associate QA Lead | WorkSpan

Apr 2022 – Dec 2022

- Promoted to lead the QA team in resolving complex, high-priority production issues under tight deadlines.
- Mentored junior engineers on testing methodologies, Postman API testing, and efficient bug reporting practices.
- Collaborated with cross-functional teams to identify process bottlenecks and implement QA process improvements.

Senior QA Engineer | BQE Software

May 2015 – Apr 2022

- Led QA initiatives for a comprehensive Time & Project Management SaaS platform covering Accounting, HR, Payroll, and CRM modules.
- Designed and maintained data pipeline test suites — validating input data sampling, transformations, and output visualizations across ERP reporting modules.
- Validated REST, SOAP, and API integrations.
- Improved defect detection rates by 20% through implementation of structured test planning and advanced testing methodologies.
- Boosted overall product performance metrics by 15% by collaborating with development and product management teams.
- Ensured compliance with ISO and industry-specific quality standards across all product releases.

EDUCATION

M.Sc. in Computer Science — Kashmir University — 2015

Bachelor of Computer Applications (BCA) — Kashmir University — 2012
